THE LEVEL OF COMFORT ON A WAITING BENCH IS ALSO A QUESTION OF PRIVACY, ESPECIALLY IN MUCH FREQUENTED ENVIRONMENTS. LESS EYE CONTACT MEANS THAT ONE FEELS MORE AT EASE. THE CENTRAL BACKREST OF THIS NEW SEATING CONCEPT INTRODUCES APPEALING, ARCHITECTURAL ELEMENTS INTO ANY MEETING PLACE. IN THE LOBBIES OF LARGE ADMINISTRATION BUILDINGS, IN CONCERT HALLS AND OPERAS, IN CONFERENCE AND CONVENTION CENTRES, IN THE RECEPTION AND WAITING AREAS OF HOTELS AND HOSPITALS AND IN AIRPORTS.
