

Littlebig Cerruti Baleri

MONOCOQUE CANTILEVER CHAIR WITH A THREE-DIMENSIONAL CURVED PLYWOOD SEAT AND A TUBULAR ALUMINIUM STRUCTURE WITH AN ELLIPTICAL CROSS-SECTION. THE SHELL IS CONNECTED TO THE BASE ONLY ALONG THE FRONT EDGE AND THE SEAT REMAINS VISUALLY SUSPENDED IN SPACE. THE TOP PART OF THE ALUMINIUM STRUCTURE BECOMES A HANDLE OR A "JACKET HANGER".

THE BACKLESS VERSION OFFERS A REDUCED STRUCTURE AND CONSEQUENTLY A SMALLER FOOTPRINT, A LOWER WEIGHT AND A GREAT VERSATILITY OF USE. THE BACK OF THE SHELL FEATURES AN ELLIPTICAL ALUMINIUM HANDLE TO LIFT AND SLIDE THE CHAIR WITH EASE. BOTH VERSIONS ARE AVAILABLE WITH POLISHED ALUMINIUM STRUCTURE AND OAK VENEER SHELL IN BLEACHED WHITE, OPEN-PORE ASPHALT BLACK OR UPHOLSTERED IN LEATHER IN THREE COLOURS (NATURAL, BURGUNDY AND BLACK) AND WITH ALUMINIUM STRUCTURE PAINTED IN WHITE, RED OR BLACK AND SHELL IN LACQUERED WOOD IN THE SAME COLOUR OF THE STRUCTURE.
