

Fruit Bol Pine Christopher Metcalfe

'BOL' IS A FUN AND FUNCTIONAL TABLE PIECE THAT SETS OUT TO CHALLENGE THE NOTION OF WHAT A FRUIT BOWL CAN BE.

WHEN A PIECE OF FRUIT IS DROPPED INTO THE CENTRE OF THE CLOSED BOWL, GRAVITY AND THE FORM OF THE BRANCHES ACT TOGETHER AND MAKE THE BOWL EXPAND OUTWARDS. IN ITS OPENED STATE, THE BOWL CAN ACCOMMODATE UP TO 10 PIECES OF MEDIUM, SIZED FRUIT. THE OPEN BRANCH DESIGN ALLOWS FOR MORE AIR TO CIRCULATE AROUND THE FRUIT, KEEPING IT FRESH FOR AS LONG AS POSSIBLE. WHEN NOT IN USE, THE BOWL CAN BE COLLAPSED AGAIN FOR EASY STORAGE.

* LASER CUT FROM 1.5MM INTERIOR GRADE HOOP PINE PLYWOOD AND AVAILABLE IN TWO FINISHES; BLONDE OR BRUNETTE.

* LASER CUTTING PROCESS ENSURES THE FINE DETAILS ARE ABLE TO REPEATED CONSISTENTLY AND THAT EACH INDIVIDUAL PANEL CAN BE CLOSELY NESTED INTO THE NEXT, MINIMISING WASTAGE.

* ALL PANELS ARE HELD TOGETHER USING COLD CONSTRUCTION TECHNIQUES.

* A LASER CUT TAG WITH CARE INSTRUCTIONS AND EXTRA O-RINGS IS INCLUDED WITH THE PRODUCT.

* COMES ASSEMBLED AND SHIPS IN A STURDY RECYCLABLE CARDBOARD BOX.
