Neutra Ferruccio Laviani

Neutra is a hanging lamp composed of two elements looking like shells, which enclose the frame. A circular lamp with generous measurements, it is ideal for contract or for definitely spacious rooms. Neutra's strength lies in its extreme formal simplicity besides the interlocking play of the two shells with the frame.

9090

Mat

03/white

09/black

Material
Batch-dyed PMMA

This lamp is also available in the 110 Volt version, following cUL and PSE certifications.
